WORK EXPERIENCE

Software Developer | Prime Focus Technologies, Bengaluru

April 2023 – Present

Responsibilities as Software Developer are –

- Developed visually appealing and responsive web interfaces using **HTML5**, **CSS3**, and **JavaScript**, demonstrating advanced proficiency and attention to detail.
- Employed CSS frameworks like **Bootstrap** and **Tailwind CSS** to expedite UI development and ensure consistency across different devices and browsers.
- Leveraged **React.js** to build interactive and dynamic components and implementing complex user interfaces using **React Js**, contributing to a seamless user experience.
- Integrated **RESTful APIs** and utilized **AJAX** techniques proficiently to seamlessly fetch and manipulate data within the web application.
- Implemented a robust file upload system utilizing AWS services such as **S3 bucket** for storage, **SNS** for notifications, **SQS** for queuing, and **Lambda functions** for automating file uploads and folder creation.
- Implemented advanced data grid functionalities including sorting, filtering, selection, grouping, editing, infinite row model(Lazy Load) and more using **AG Grid library**, enhancing data presentation and user interaction capabilities.

Programmer Analyst | Cognizant Ltd, Bengaluru

February 2022 – October 2022

Responsibilities as Programmer Analyst were -

- Designed and developed display interfaces for small businesses and departments using the AS400 midrange server tool, ensuring functionality and visual appeal.
- Contributed to the design, development, testing, and debugging of responsive web and mobile applications using HTML, CSS, JavaScript, and React, enhancing user experience and application performance.

PROJECTS

CLEAR (Prime Focus Technologies)

April 2023 – Present

CLEAR project is focused on managing content across various OTT platforms, encompassing creation, transformation, management and distribution of various images, audio and video, subtitles and designs. Working collaboratively, we ensured the production of engaging content tailored to diverse audiences, optimized for maximum impact and reach across multiple platforms.

Centene-MHN Portfolio (Cognizant Ltd)

February 2022 – October 2022

The project involved designing display interfaces for Centene-MHN using the AS400 midrange server tool, as well as identifying and debugging issues found.
